

Mekong River Commission

Regional Flood Management and Mitigation Centre

Weekly Dry Season Situation Report for the Mekong River Basin

Prepared at: 22/02/2016, covering the week from the 15th to 22nd February 2016.

Weather Patterns, General Behaviour of the Mekong River and Dry Season Situation

General weather patterns:

No critical weather during last week

General behaviour of the Mekong River:

Compared to the long term average (LTA), the water levels from Chiang Saen to Kratie were fluctuating above the LTA, except from Vientiane to Paksane and from Kompong Cham to Chau Doc/Tan Chau were fluctuating about or below the LTA.

For stations from Chiang Saen and Luang Prabang

Compared to long term average (LTA), during last week the water levels at Chiang Saen and Luang Prabang stations were fluctuating above the LTA, respectively.

For stations from Chiang Khan, Vientiane and Nong Khai and Paksane

Compared to long term average (LTA), during last week the water levels at these stations were fluctuating above the LTA, except at Vientiane below the LTA.

For stations from Nakhon Phanom to Pakse

Compared to long term average (LTA), during last week the water levels at these stations were fluctuated below the LTA.

For stations from Stung Treng to Kompong Cham

Compared to long term average (LTA), during last week the water levels at these stations were fluctuating below the LTA.

For stations from Phnom Penh to Prek Kdam

Compared to long term average (LTA), during last week the water levels at these stations were fluctuating about the LTA.

Tan Chau and Chau Doc

Compared to long term average (LTA), during last week the water levels at Tan Chau and Chau Doc stations were fluctuating about and below the LTA, respectively.

Dry season situation

During the last week, no rain at all Lower Mekong Basin (see Table A2).

For more details see the following annexes:

- Tables for observed water levels and rainfall for the last week in Annex A
- The water levels graphs showing the observed water levels for the season in Annex B
