

Mekong River Commission

Regional Flood Management and Mitigation Centre

Weekly Dry Season Situation Report for the Mekong River Basin

Prepared at: 08/02/2016, covering the week from the 01st to 08th February 2016.

Weather Patterns, General Behaviour of the Mekong River and Dry Season Situation

General weather patterns:

No critical weather during last week

General behaviour of the Mekong River:

Compared to the long term average (LTA), all water levels were fluctuating above or about the LTA, except Kampong Cham to Koh Khel and Prek Kdam that were below the LTA during last week.

For stations from Chiang Saen and Luang Prabang

Compared to long term average (LTA), during last week the water levels were decreased above the LTA.

For stations from Chiang Khan, Vientiane and Nong Khai and Paksane

Compared to long term average (LTA), during last week the water levels at these stations were fluctuated above the LTA, except Paksane that was about the LTA.

For stations from Nakhon Phanom to Pakse

Compared to long term average (LTA), during last week the water levels at these stations were fluctuated above the LTA.

For stations from Stung Treng to Kompong Cham

Compared to long term average (LTA), during last week the water levels at these stations were increased above the LTA, except Kompong Cham that was below the LTA.

For stations from Phnom Penh to Prek Kdam

Compared to long term average (LTA), during last week the water levels at these stations were increased below the LTA, except Neak Luong that was above the LTA.

Tan Chau and Chau Doc

Compared to long term average (LTA), during last week the water levels at these stations were increased above the LTA.

Dry season situation

There were some rainfalls in the upper part of LMB at Chiang Saen, Paksane and Thakhek; the maximum accumulated rainfall of 2.3 mm was at Thakhek station on 01 February 2016 only (see Table A2).

For more details see the following annexes:

- Tables for observed water levels and rainfall for the last week in Annex A
- The water levels graphs showing the observed water levels for the season in Annex B
